

What and how  
to communicate  
about  
environmental  
work in your  
own work unit,  
in collaboration  
networks, and in  
client/patient  
work?

**CARING NATURE**  
Sustainable solutions for healthcare

---

**What kind of messaging on social media?**

---

**What kind of communication in webinars? In blogs?**

---

**Informative sessions in the workplace?**

---

**What kind of communication in work teams? To a co-worker? To a collaborator?**

---

**In co-development/co-creation processes?**

---

**During coffee breaks?**

---

**In development projects?**

---

**What kind of high-visibility campaigns at the organisational level?**

---

**What kind of workplace meeting practices (for example, communication in monthly or reporting meetings)?**

---

**Something that does not yet exist? ("Environmental Work Morning Coffee Academy" or alike?)**

---

**What kind of guidelines are needed, and for what?**

---
